## THE EXCHANGE GETS RESULTS

**The Garden Bug**  
The inner petals of this Grandiflora rose are pale orange, with the undersides slightly darker. The outer petals are edged in red, and curl under. The fully-bloomed flower can be 4 1/2" across, have up to 25 petals, and carries a light, pleasing fragrance. A bush of this kind can grow 4 feet tall and 2 feet wide, and display many blooms at a time throughout a growing season. When set next to blue flowers such as delphinium it is especially striking.
