1966 Ford Mustang Convertible

This extremely rare and unique Mustang is one of very few "K" code hi-performance convertibles produced in 1966. These "Hi-Pro" 289 V8's were rated at 271 hp and were supported by a host of upgrades including higher front and rear spring rates and a stronger 9" rear end with the automatic transmission option being available with the "K" code engine for the first time in 1966. Meticulously restored under prior ownership, it is presented in Candy Apple Red with contrasting white top and interior.
